

Response 1

Sir

I don't know who you are, nor can I be bothered even to look up who you represent, and I certainly can't waste my time reading through yet another consultation paper.

Councils and land managers already have uncountable numbers of rules and regulations, red tape of all sorts, which they can't possibly keep up with. The last thing they need is yet another edict from on high listing a whole lot more things they need to do.

This proposed bill **MUST NOT BE ALLOWED TO GO ANY FURTHER.**

NO further legislation of ANY KIND should be promoted unless at least as much legislation is **TAKEN OFF** the Statute Book.
